

Symphonic A Period Students:

As we discussed last year, participating in Symphonic band as an A period student requires more independent practice and preparation of your music because you do not rehearse with us in period 1 daily. SmartMusic will help you with this through an additional set of practice assignments.

Now that you are familiar with the SmartMusic system, you should now enroll in your second online class, specifically designed for you.

- Log in to your SmartMusic account using your email and password.
- Next to where it says "Classes" on your home page, click on "enroll."
- Place your cursor over "Symphonic A Period" and click "enroll."
- You are now registered for Symphonic A Period SmartMusic assignments. **Note that you will now have assignments for both Griffin Band as well as this online class.** As you are now above the intermediate level of band, this is to reflect the increased practice time that you should be doing as advanced middle school musicians.

Notice that you already have a playing assignment for Symphonic Band. Under the "Symphonic A Period" Class Assignments, click on "Celebration and Song." You will play up thorough measure 36 of this piece, due on Friday.

Also note that you can turn off the accompaniment (full band) track, as well as the click of metronome and the cursor. Toggle the settings to help you get your best results.

Happy practicing!
